

## Banner 8 Clients Meeting - December 17, 2009

Attendees: Alex Garcia, Mrinal Virnave, Kim Montoya, Joaquin Gonzalez, Abdulmalik Al-Gahmi, Pamela Roggow, Paul Berver, Art Trujillo, Jesus Hernandez, Bruce Schaa, Lupe Aragon, Minerva Galaz, Felipe Parra, Kathy Montoya, Brian Atwood, Angela Lopez, Lynne McClure-Flores, Gary Black, and Laura Ramirez

- Housekeeping – Alex
  - Go live date is still March 25, 2010
  - Have 62 working days left
  - Testing window until February 12
  - UBN8 Refresh – ready to begin when we get back from break
  - Will be available by Jan. 11
- Test Plans – Alex
  - Test plans have been posted on the website
  - Due Dec. 23: Before we leave for Christmas break
- Upgrade Plan – Alex
  - Planning on creating a plan for go-live
  - Presentation by DBA the last week of Jan.
- Issues/Questions/Concerns
  - Gary
    - E-Print Password Reset
      - Q: Who to contact to get this resolved?
      - A: (Mrinal) An e-mail was sent to Cecil to reset Gary's password
      - There was a difference in the way UBAN and UBN8 printers were named
      - Per Mrinal, Shaun and Cecil can fix these discrepancies
    - Banner 8 Access To New Staff
      - Have new personnel hired and need to get them Banner access. Q: Who should the request go to?
      - A: (Mrinal) Send them to banner-security
    - FGRTRNI/Sun Studio 12
      - The FGRTRNI has compiled alright; it works perfectly
      - Test data from training came through, but it is rolling back
      - Would like to test after the refresh is done
      - There was a change put into the TTRCBLD process
    - Refresh
      - Ideal for the refresh to be as close to Month-End processing
      - Jan. 3 is preferable, but it won't be coming from a backup per Mrinal
      - Per Paul, we will be doing an export and not from backups

- Q: (Mrinal) If Gary calls on Monday morning, right after Finance feeds, will that work?
- A: (Gary) Yes that will work as we would also like to do a Spring Disbursement
- Gary should coordinate with Laura on what he needs to be preserved prior to doing the refresh
  
- Lupe
  - GRE Tapeload
    - Requires the Student 8.3 upgrade, which won't be released until end of Dec. per Sungard
    - Lupe can test once the upgrade has been applied
    - This adds more upgrades to our Master List of upgrades
    - TOEFL tapeload is working, too
  - Web Apps
    - Push process went ok
    - Need to do a purge
    - Will contact Bruce to run parent scripts
  - LetGen
    - Letters printed, but with a smaller font. Kim forwarded this issue to USA (Scott)
    - Q: Can we test labels? A: (Kim) Yes, we can test them as well
    - Per Felipe, printing letters via FormFusion is working perfectly
  
- Kathy
  - Appworx Jobs
    - None of the Appworx jobs are working and Mark is currently working on them
    - Per Jesus, there are changes coming for these Appworx jobs
  - Oracle Report Server
    - Lynne Ray is still working with Sungard on this issue
    - Still unresolved
  
- Abdulmalik
  - SS Ventana
    - Q: Is there a test environment to test this?
    - A: (Mrinal) I will ask Rich about this. HR wants to test HR to Ventana processing
  - Future Upgrades
    - Q: Are we going to 8.3 version on all modules?
    - A: (Mrinal) No, we wanted to only go to 8.2 version, but some versions are further along

- Pamela
  - PHPCHKL – Ready to test
  - PHPFEXP – Pamela hasn't had a chance to test. Kathy will assist with this effort
  
- Grant Rebuild – Kim/Bruce
  - New password is needed from UCC for FIMSMGR to proceed with this
  - Per Mrinal, DBA has this password available and this process should be put into Appworx
  
- Xtender – Alex
  - Per Carl, we are staying at the version we are currently, not upgrading yet
  - Kathy believes that SPA needs to test in UBN8 and not in UBAN, which is what Carl may think
  - There's some misunderstanding about what instance needs testing
  - Alex will follow up to clear up any misunderstandings
  
- Patches Report – Alex
  - Posted on website
  - Zip file that lists all patches for all modules
  
- Individual Issues
  - Minerva – nothing at this time
  - Joaquin – nothing at this time
  - Angie – nothing at this time
  - Brian - nothing at this time
  - Gary - nothing at this time
  - Lynne - nothing at this time
  - Paul – nothing at this time
  - Mrinal – nothing at this time
  - Kathy - nothing at this time
  - Pamela - nothing at this time
  - Abdulmalik - nothing at this time
  - Felipe - nothing at this time
  - Mark - nothing at this time
  - Bruce - nothing at this time
  - Jesus – nothing at this time
  - Art – nothing at this time
  - Kim - nothing at this time
